SECTION V. PROPOSAL INFORMATION AND REQUIREMENTS

PROPOSAL INFORMATION

HHSC Home Delivered Meals Pilot Assumptions

The completion of rule promulgation for 40 Texas Administrative Code (TAC), Chapters 55 and 85, which may create an alternate method of delivery specific for unserved areas of the state, is targeted for a September 1, 2018 effective date. Prior to publishing the proposed rule in the Texas Register, the Health and Human Services Commission (HHSC) will implement a pilot program which provides flexibility for delivery of home delivered meals intended to address unmet need and analyze its outcomes. The pilot will operate within a AAA's current allocation of Federal Nutrition Services funding received in 2017.

The pilot will include Area Agencies on Aging (AAA) approved by the HHSC Office of Area Agencies on Aging to use alternative options for meal provision in areas where:

- traditional providers do not exist; or
- traditional providers are limited in capacity to meet the need.

Each approved AAA will contract with the nutrition provider of its choice to offer services under this pilot. Meals will be hot, chilled, or frozen and will be delivered at a cost not to exceed \$6.12 per meal. There is no specific service delivery window of time. Common providers participating in the pilot can receive up to \$6.12 for each meal delivered in the AAA's service delivery area specifically approved for this pilot.

The pilot will begin no later than 4/01/2017 and end on 9/30/2017, with a possible extension during a designated transitional period. The HHSC Office of Area Agencies on Aging will evaluate the pilot outcomes by 10/31/2017.

HHSC PROPOSAL REQUIREMENTS

A. State's Responsibilities

- Develop AAA application to participate in the pilot project.
- Select AAA pilot participants.
- Post AAA pilot participant selection on HHSC's website through an alert to notify the universe of potential nutrition providers of the pilot, provide AAA contact information, and provide a deadline for AAA procurement activities.
- Develop a standard Recipient Outcome Survey and designate the point in time the survey will be conducted.
- Determine if immediate changes are needed to remedy an egregious problem with the provision of nutrition services through the pilot.
- Perform pilot analysis following a 7-month implementation period to determine the feasibility of the service delivery model and inform the rule promulgation for 40 TAC, Chapters 55 and 85 (HDM project #16R08).
- Ensure implementation of the transition plan following the completion of the pilot on 9/30/17. Continuation of the service delivery model will be determined by the results of the pilot project, participant's feedback, and funds available.

B. AAA Responsibilities

- Define the service areas for pilot participation and ensure the designated service areas remain unchanged for the duration of the pilot. Service areas are designated by city or by county.
- Identify pilot participants considered to have unmet nutrition needs due to a lack of available providers in their area.
- Ensure current service levels to people in the AAA region are maintained for cities or counties not included in the pilot.
- Based on the AAA's service delivery design for the pilot, develop written processes to delineate the role of all parties involved in the pilot to:
 - Annually provide nutrition education to all home delivered meals pilot participants.
 - Conduct an in-home visit with the participant to complete an initial home delivered meals pilot intake, conduct the "Nutrition Risk Assessment" and conduct the Consumer Needs Evaluation to determine eligibility based on the AAA's pilot design.
 - Conduct an in-home assessment of a participant's ability to receive, store, prepare and handle hot, chilled, or frozen pre-packaged meals and maintain a copy of the assessment in the participant's file.
 - Annually conduct an in-home visit with the participant to update the home delivered meals pilot intake, "Nutrition Risk Assessment" and "Consumer Needs Evaluation" and continue to assess the participant's ability to receive, store, prepare and handle hot, chilled, or frozen pre-packaged meals and document this assessment in the participant's file.
 - Document on the home delivered meals pilot intake the person receiving the meal is a participant of the pilot and has been provided information about the pilot.
 - Inform participants of the Older Americans Act contribution policy; the process must include a description of how the participant is made aware of this requirement initially, and how often participants are reminded of their right to make a voluntary contribution.
 - Track program income for pilot participants and record program income received and expended in the agency's accounting records for reporting to the Health and Human Services Commission.
 - Ensure contact is made with each participant twice per week for the purpose of determining receipt of meals and general satisfaction with meals. Contact with a delivery courier does not count as one of the two contacts required per week. Contacts can include text, email or phone call, based upon the preference of the consumer as documented in the home delivered meals pilot intake.
- Authorize home delivered meals to a participant prior to initiation of service.
- Maintain a method to ensure payment is made to a provider only for meals authorized by the AAA prior to initiation of service.
- Develop policy for action to be taken when notified by a provider of a delivery attempt for which the pilot participant is non-responsive.
- Respond promptly to comments and concerns of pilot participants receiving the meals and document results in a comment log specific to the pilot.
- Include the comment log with the monthly pilot payment request to the HHSC Office of Area Agencies on Aging.
- Develop policy to ensure delivery personnel or volunteers are aware of the training requirements in [40 TAC §85.302\(o\)](#).

- For individuals who have been receiving meals through the pilot, develop a transition plan for continued service delivery extending after the completion of the pilot on 9/30/17. Assuming there is sufficient satisfaction from pilot participants in the pilot service delivery model, the participants will continue to receive alternate meals throughout the transition period until the AAA is able to procure a nutrition provider through its normal contracting process.

C. Contractor Responsibilities

- Provide orientation training to delivery personnel or volunteers based on 40 TAC [§85.302\(o\) \(1\)](#).
- Deliver a shipment of meals at a minimum of once per week to each pilot participant.
- Deliver meals to a participant only after the service is authorized.
- Deliver meals to all participants in the pilot area as authorized by the AAA. The contractor will ensure the participant received the meals in accordance with the AAA policy.
- Deliver only meals meeting the dietary requirements in 40 TAC [§85.302\(h\)](#).
- If a pilot participant is non-responsive to attempted deliveries from the contractor, notify the AAA in accordance with AAA policy.
- Provide a separate monthly invoice (calendar month) for all meals provided for each AAA in compliance with the AAA procedures for requesting reimbursement of meals.
- Respond promptly to concerns of participants related to meals.

CI. Proposal Terms

1. RENEWAL - Renewal of any contract because of this RFP will be determined annually by satisfactory performance by successful proposer; and if both parties agree, the contractual agreement may be renewed in one year increments.
2. PAYMENT – Payment terms are Net 30 upon receipt of invoice. All contracts negotiated because of this RFP will be cost reimbursement. A cost reimbursement contract is a contract format wherein all allowable costs detailed in the budget attached to the executed contract are reimbursed. Contractors are required to maintain documentation, which substantiates the expenditures for their invoice to be paid. The proposer shall have the fiscal capability to wait for their reimbursement of funds.
3. COMPLIANCE - Proposer must agree to comply with WCTCOG's fiscal policies. WCTCOG will consider comparable policies, if the policies meet grant requirements and are approved as a part of the initial contract negotiation.
